Plumbing Skills Competition

**Overflowing with talent?**

Summit **SKILLS**

In association with  
**ukskills**

## Skill M&E is four skills competitions that search for the best of the best mechanical and electrical engineers from the building services engineering sector:

SkillELECTRIC, SkillFRIDGE, SkillPIPE and SkillPLUMB have been designed to promote standards and skills across the sector, developing competence into excellence.

Everyone benefits from competition as it ensures the constant development of technology, quality of skills and services provided. For the individual, the rewards

can be fantastically self satisfying. For employers, highly adept employees contribute to the success and profitability of the company.

At these events competitors will undertake a series of practical tests based on real-life work to highlight their outstanding skills. It's a real adventure for those involved going head to head with

their peers in the spirit of competition.

**Winners of the competitions also could have the chance to become truly world-class at WorldSkills, the largest international skills competition in the world. The next WorldSkills will be held in London in 2011.**

### Why get involved?

#### Employers:

- Enhance your reputation as a business and an employer as well as improving the skills of your workforce
- Instill mutual pride in the job and your company
- A huge PR opportunity
- Inject ambition and aspiration

#### Competitors:

- Go beyond the normal expectation of your education and training
- Master your skill
- Experience the excitement of competing
- Gain a deeper understanding of quality you would normally share
- Gain recognition for your exceptional skills

#### Colleges and training providers:

- Maximise on great PR opportunities
- Inject dynamism and excitement into training
- Inspire students and apprentices to show what they can do
- Demonstrate the quality of your processes and output
- Inspection reports often pick out involvement in skills competitions as evidence of striving for excellence
